THE TRUE METTLE.

Charles Chenoweth Decides to Fight for Silver.

Winnemucca, Sept. 20, 1892. E. W. Taylor, Secretary State Central Committee Prohibition Party, Reno, Nev.—Dear Sir: I believe that the liberties of the American people are in imminent danger and that unless this great danger is speedily averted, revolution is inevitable. And I further believe that such a unanimity of action upon the part of the masses at the ballot box shall consign to oblivions grave the two parties, which have ingloriously conspired with the Wall street goldbug and English plutocrats, to rob the people of the silver producing States of the means with which to procure their bread and butter, is now imperatively demanded at the hands of every honest citizen and patriot. Such being my convictions, coupled with the evident fact that the evils afflicting the people which have any prospect of being remedied at any early day, can be most surely and expeditiously reached through the People's party. I deem it a duty I owe to myself and to the State and people with which I have so long been identified, to join the silver league in the endeavor to right these wrongs. Having so determined and not wishing to appear in an inconsistent light, I hereby tender my resignation as a member of the State central committee of the Prohibition party of Nevada. Respectfully submitted,
CHAS. CHENOWETH.

MORE FROM TRUE BLUE.

He Proves One of Those "Waiting" Silver Men.

Carson, Sept. 22, 1892. Mr. Editor:—In your comments on my letter published Sept. 20th, you appear to wilfully distort my meaning, as well as deny statements that I made with regard to the benefits of Republican policy, even as applied to Nevada.

It is true we are not in a position to profit by it as we would be if we could persuade capital to invest here. You say protection don't benefit Nevada. How long would our salt and borax works be running without protection? Do the owners of the vast herds of cattle and sheep that roam our hills and valleys complain of the tariff? How many creameries were running in Nevada before the McKinley bill passed? And the wages of our working men seem to indicate that they are enjoying some benefits from protection.

Your sneering allusion to bondholders would indicate that you think nothing is due to the men who, clothed and paid those who saved the Union.

Mr. Editor, I have as much respect for the "bone and sinew" as you have, but it must be properly led or it is as liable to endorse anarchy as anything else.

The militia of this country are not likely to be called to quell riotous merchants, lawyers, bankers or even bondholders. Of course we would all like free coinage of silver, but I am willing to wait until the cool financial heads of this country deem it safe. When that time comes, no doubt the Republican party will gladly endorse it.

I will conclude by saying this, that with all his vetoing proclivities and all his pigheadedness, I would rather vote for Grover Cleveland than for Weaver, the head of a mob.

TRUE BLUE.

[The protection to our borax industry enables a few Chinamen to obtain work in the borax marshes.

While borax is being thus protected a lever is being trampled on by the Administration, which has more consideration for a dozen borax shovelers, than for ten thousand white, silver miners, who constitute the backbone of the West. True Blue may still like to continue with a party that considers the interests of a few Chinamen as against those of ten thousand miners; but most men not absolutely hide bound, would not.

On the silver question our friend is like some others we know of. He wants silver, but is willing to "wait until the cool financial heads of the country deem it safe."

The cool financial heads of the country, such as Jay Gould, D. O. Mills and Russel Sage, are making too much money in squeezing interest out of the masses to ever want a change. They are safe enough just as they are.

This waiting policy is played out. We have waited since 1873. Were all Americans of the "True Blue" disposition in the days of 1776, the Revolutionary war would never have been heard of. Now is the time for action. If we wait for the bondholders of Wall street to deem the silver proposition safe, we will all be dead before anything is done. —ED. APPEAL.]

The Woodthorpe Company.

Next Monday evening the Georgie Woodthorpe Company will inaugurate a short dramatic season to continue during Fall Week. This excellent company has scored a great success at the State Fair. The opening play will be "Little Lord Fauntleroy," a dramatization of Mrs. Burnett's story of the same name. "Lord Fauntleroy" is a household word wherever the English language is spoken, and of all the many personators of that prince of childish characters, little Georgie Cooper is acknowledged by press and public, to be the greatest. A change of programme will be given nightly and a matinee on Saturday afternoon.

Happily Compromised.

The Tribune editor was boiling with wrath after the primary and studying to get even on the treachery of his associates.

The ring had to conciliate him in order to keep the influence of his powerful journal in the party lines. It was finally agreed that the Tribune should help make the fight this year and the editor would be allowed to consent to have his name placed before the voters as a legislative aspirant two years from now.

ALL SORTS.

When you visit Reno today look out for pick pockets.

Don't forget to purchase a season ticket for the District Fair.

Plenty of cash at Golden's to bet on Weaver, Stewart and Newlands carrying this State.

News received in San Francisco from John W. Mackay states that he expects to arrive in New York the latter part of this month. He is not expected on the coast until December.

Geo. Tichnor Curtis, a leading New York Democrat, has astonished his party by coming out over his signature and denouncing the Chicago platform. He has publicly repudiated Cleveland for Weaver.

Governor Adams and Burrington made a Mormon trade the other day, the Governor giving Burrington 200 head of horses and 100 head of beef steers for his band of cattle. Mr. B. throws in a sack of carrots.—White Pine News.

The unblinking frauds and systematic boot-rotting by which the Democrats gained an advantage in Kansas, are not commented on now by the Republican press for fear that the exposure will show that the People's party were really entitled to the victory.

White Pine county has contributed \$182.50 to the Mrs. Cassidy fund. This is according to the population, the best showing made in any county in the State, excepting Washoe, whose contribution was swelled by the \$500 donation of Mr. Newlands.

The Enterprise has begun to throw mud at Senator Stewart. It has received word by wire from D. O. Mills of Wall street, New York, to make a straight gold bug fight. The only thing Mills can control in Nevada is the Enterprise. The people have long ago repudiated that sort of bossism.

The following from an exchange is pertinent: "A stranger entered a town a few days ago, and approaching a leading citizen, said: 'I want to meet the enterprising business men of your town. Can you give me their names?' The citizen said nothing, but simply handed a newspaper to the stranger and pointed to the advertisements. The significant hint was sufficient."

The Carson Tribune reads the Gazette out of the Republican party. It is a good deal like a scullion ordering the master of the house out of his mansion.—Gazette.

The idea of this superannuated old relic of junkshop journalism reading anyone out of a party has caused a broad smile to spread all over the State. Its opinions have not influenced a vote in Ormsby County during the last ten years.
